

# ISMI 2018 & IEEE SMILE 2018

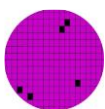

International Symposium on Semiconductor Manufacturing and  
Intelligence & IEEE International Conference on Smart Manufacturing,  
Industrial & Logistics Engineering

---

February 7-9, 2018, Hsinchu, Taiwan

- 47 A robust mathematical model for capacity planning in semiconductor industry under demand uncertainty  
*Yanjie Zhou and Gyu M. Lee*
- 49 Dynamic scheduling of the dual stocker system using reinforcement learning  
*Seol Hwang, Sang Pyo Hong and Young Jae Jang*
- 52 Clinical task assignment for dental residents and interns: A case in Taiwan  
*Wen-Chih Chen, Chun-Ting Mu and Wei-Chuan Chen*
- 66 A Sustainable Business Innovation Decision-Making Model to Capture User Experience For New Product and Service Design  
*Kuo-Yi Lin*
- 67 Application of combinatorial Benders' cuts to flow shop scheduling problems with queue time constraints  
*I-Hsuan Hong and Pin-Kuan Lee*
